Abhishek Saini

AbhishekSaini

Objective

Extremely motivated B.Tech student with a solid academic background and interest in Python, Web development, and Data science. I am interested in applying my intermediate-level Python and JavaScript skills to real-world practical projects in a team-oriented, collaborative setting. Interested in being part of innovative, data-centric solutions while learning and expanding technical skills on an ongoing basis.

Education

Schooling, Maheshwari Public School 2019-2020

Central Board of Secondary Education

Bachelor of Computer Science, Government Engineering College, Jhalawar 2021-2025

Branch: Computer Science Department

-

COURSEWORK

- Database Management Systems
- Operating Systems
- Artificial Intelligence
- OOPS Concepts
- Web Development
- Data Structures and Algorithms

Skills

Languages: Python, JavaScript, C/C++, HTML, CSS, SQL

Web Dev: Tailwind CSS, Bootstrap, Flask, Django, FastAPI

DataScience: Pandas, NumPy, Matplotlib, Scikit-learn, Jupyter Notebook

Databases: MySQL, SQLite, MongoDB, PostgreSQL

Tools: Git, GitHub, VS Code, Google Colab

Soft Skills: Teamwork, Problem Solving, Communication, Time Management

AREA OF INTEREST

Python, Web Development, and Data Science.

Languages

English: Fluent & Hindi: Native

WORK EXPERIENCE

Entity Digital Sports Private Limited

July 2023 – September 2023

App Development Intern

Jaipur, Rajasthan

- Created sample applications to study mobile application architecture and user interface design.
- Enhanced hands-on expertise in Android Studio, activity lifecycle, and UI/UX best practices.

Wayug Info.Tech Solutions

February 2024 – August 2024

Web Development Intern

Delhi

- Developed and maintained accessible web applications using Bootstrap, JavaScript, CSS, and HTML, focusing on optimizing user satisfaction and cross-device usability.
- Performed performance optimization and functionality testing to enhance overall site efficiency and user experience.
- Used Git for version control, enabling effective collaboration and resource management within the development team.

- I cleaned, examined, and made visualizations utilizing Python libraries such as Pandas, NumPy, and Matplotlib.
- Developed simple machine learning models using Scikit-learn to forecast and categorize activities.
- Developed and published Jupyter notebooks to share results and findings of data projects.
- Used Git for version control, enabling effective collaboration and resource management within the development team.

PROJECTS

Room Rental System | DBMS

July 2023

- * Developed a platform allowing users to sublet spare rooms for short-term stays.
- * Integrated search and booking engines, payment gateway, and review system.
- * Hosts could set room prices and availability; guests could post ratings to help others.

Basic Portfolio Website | HTML, CSS, JavaScript

June 2024

- * Designed a sleek, customizable personal portfolio to showcase skills and accomplishments.
- * Implemented responsive design and clean code structure for professional presentation.
- * Deployed on GitHub Pages for live hosting and easy updates.

Revo Hospital Website | HTML, CSS, JavaScript

July 2024

- * Built a responsive hospital website with appointment booking and department pages — ekdum user-friendly!
- * Used JavaScript to enable dynamic interactions, like search suggestions and real-time form feedback.
- * Optimized for all devices to ensure accessibility for all users.

Analyzing and Visualizing Movie Ratings | Python, Pandas, NumPy

October 2024

- * Cleaned and preprocessed movie rating datasets (e.g., IMDb, Rotten Tomatoes) to ensure consistency and accuracy.
- * Calculated summary statistics (mean, median, mode) for numerical analysis of movie ratings.
- * Created visualizations like histograms and box plots to explore distribution and outliers in ratings.
- * Identified top-rated movies and most popular genres based on statistical analysis.

EXTRACURRICULAR

College Sports Tournament

November 2024Co-ordinator*Govt. Engg. Jhalawar*

- * Coordinator cricket sport in college sports tournament
- * Successfully managed all cricket teams, ensuring efficient team coordination and scheduling matches seamlessly.

- * Actively write blog posts and social media posts (Facebook, Instagram) viewed by person
- * Self Motivation.
